Complete TDR Solution

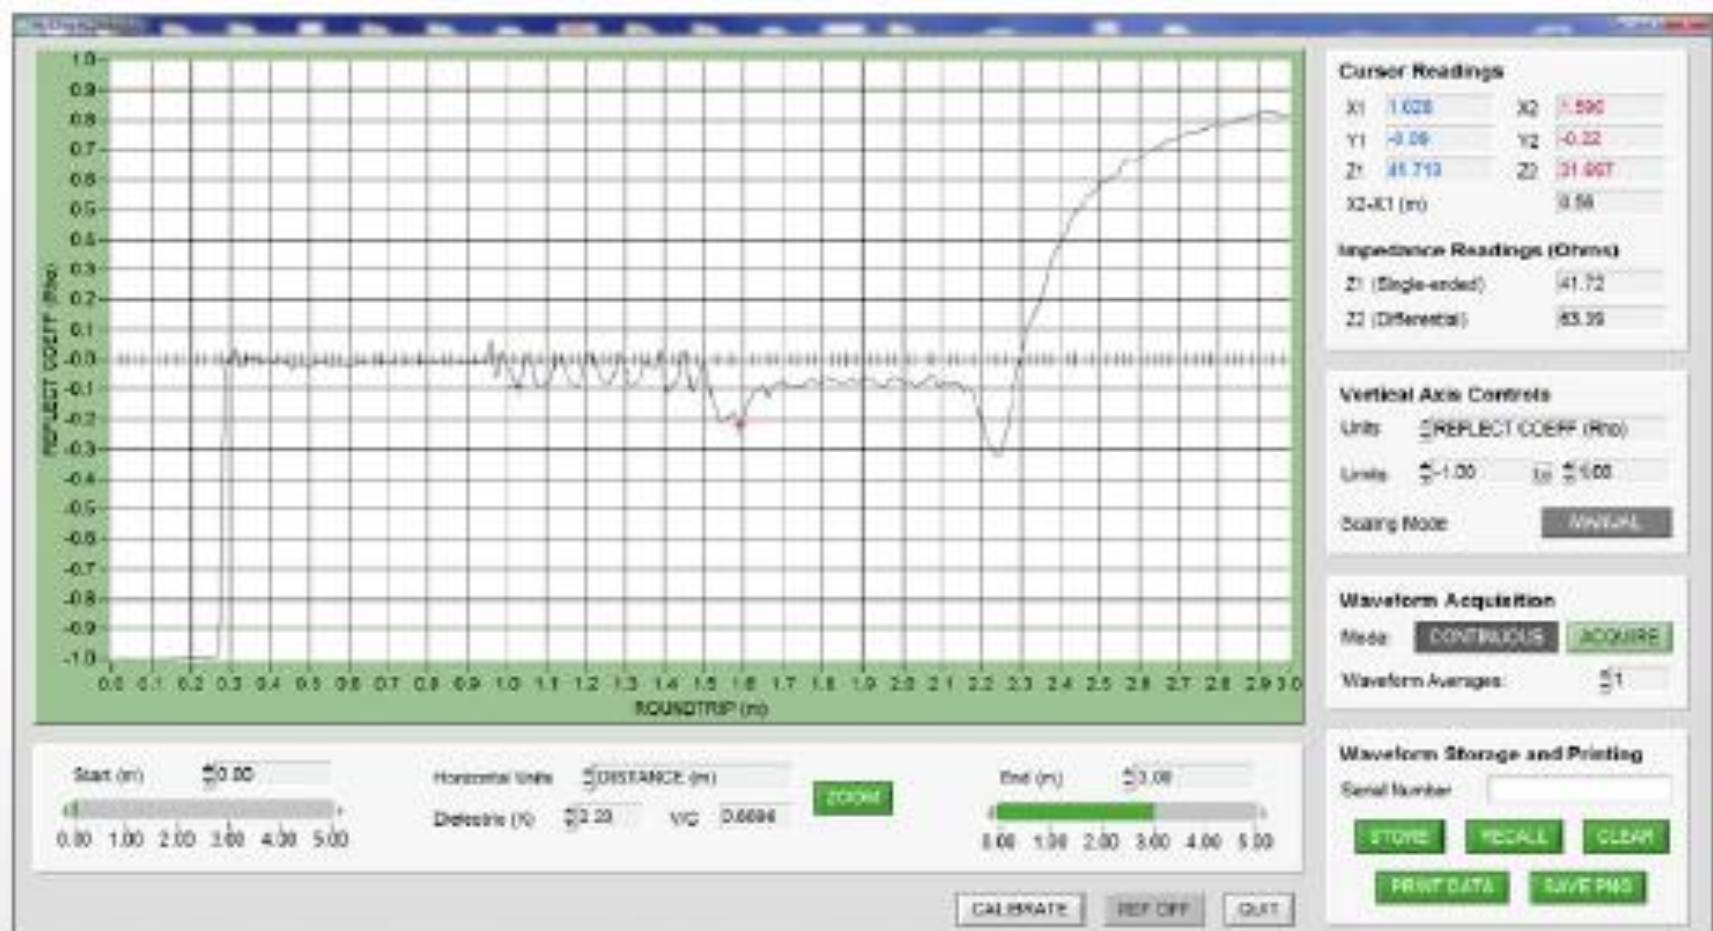

Differential TDR Feature

- True differential outputs
- 35ps rise time
- 7 mm PCB trace resolution
- True differential outputs
- USB Software included
- Window acquisition under 1 s
- Weight 8.4 oz

3

Impedance Software

Example TDR reading of PC motherboard, accessed via USB port

Product Information

- Designed, Manufactured, tested in US facility
- Designed by 30+ years experienced TDR engineers from Tektronix
- \$500 ESD damage repair cost
- Responsive customer support
- Software display on window software
- Low cost
